Processor Assignment: Full Project

Checklist

20th November 2022

Version 1.0

All files must be submitted to Blackboard as individual files, no zip-files. Submit only entities that are working and are fully tested. You must follow the entity order on the checklist. You cannot skip entities.

The entities must be programmed and tested in the following order. Please confirm by ticking all the boxes, next to the items, that all required files are available on Blackboard and that the entity is fully working. You must print this checklist, tick the boxes, sign it, and submit it with your assignment to Blackboard.

All files must be submitted in the checklist order:
